In reference cable (attached) [REDACTED] requests that arrangements be made for him to have Cryptographic clearance. I recall the previous dispatch which we sent your staff on this same subject but also included the DDI Rep. Apparently that fellow has the clearance, and this is why Russ is asking for it too. I am checking with DDI to determine if this is so, but I would like to know from you whether it will be feasible for Russ to get this clearance from Commo Security.
